

SUMATRA COCO

PREMIUM COCONUT CHARCOAL BRIQUETTES

CRAFTED IN INDONESIA
PREPARED FOR THE WORLD

PREMIUM INDONESIAN COCONUT CHARCOAL

Sumatra Coco is a premier Indonesian manufacturer and global exporter of high grade 100% natural coconut shell charcoal briquettes.

Sourced from sustainable coconut shells across Indonesia, our briquettes are meticulously processed to meet international quality standards for shisha/hookah and premium BBQ applications.

FROM INDONESIA TO **GLOBAL MARKETS**

Export-Oriented Supply

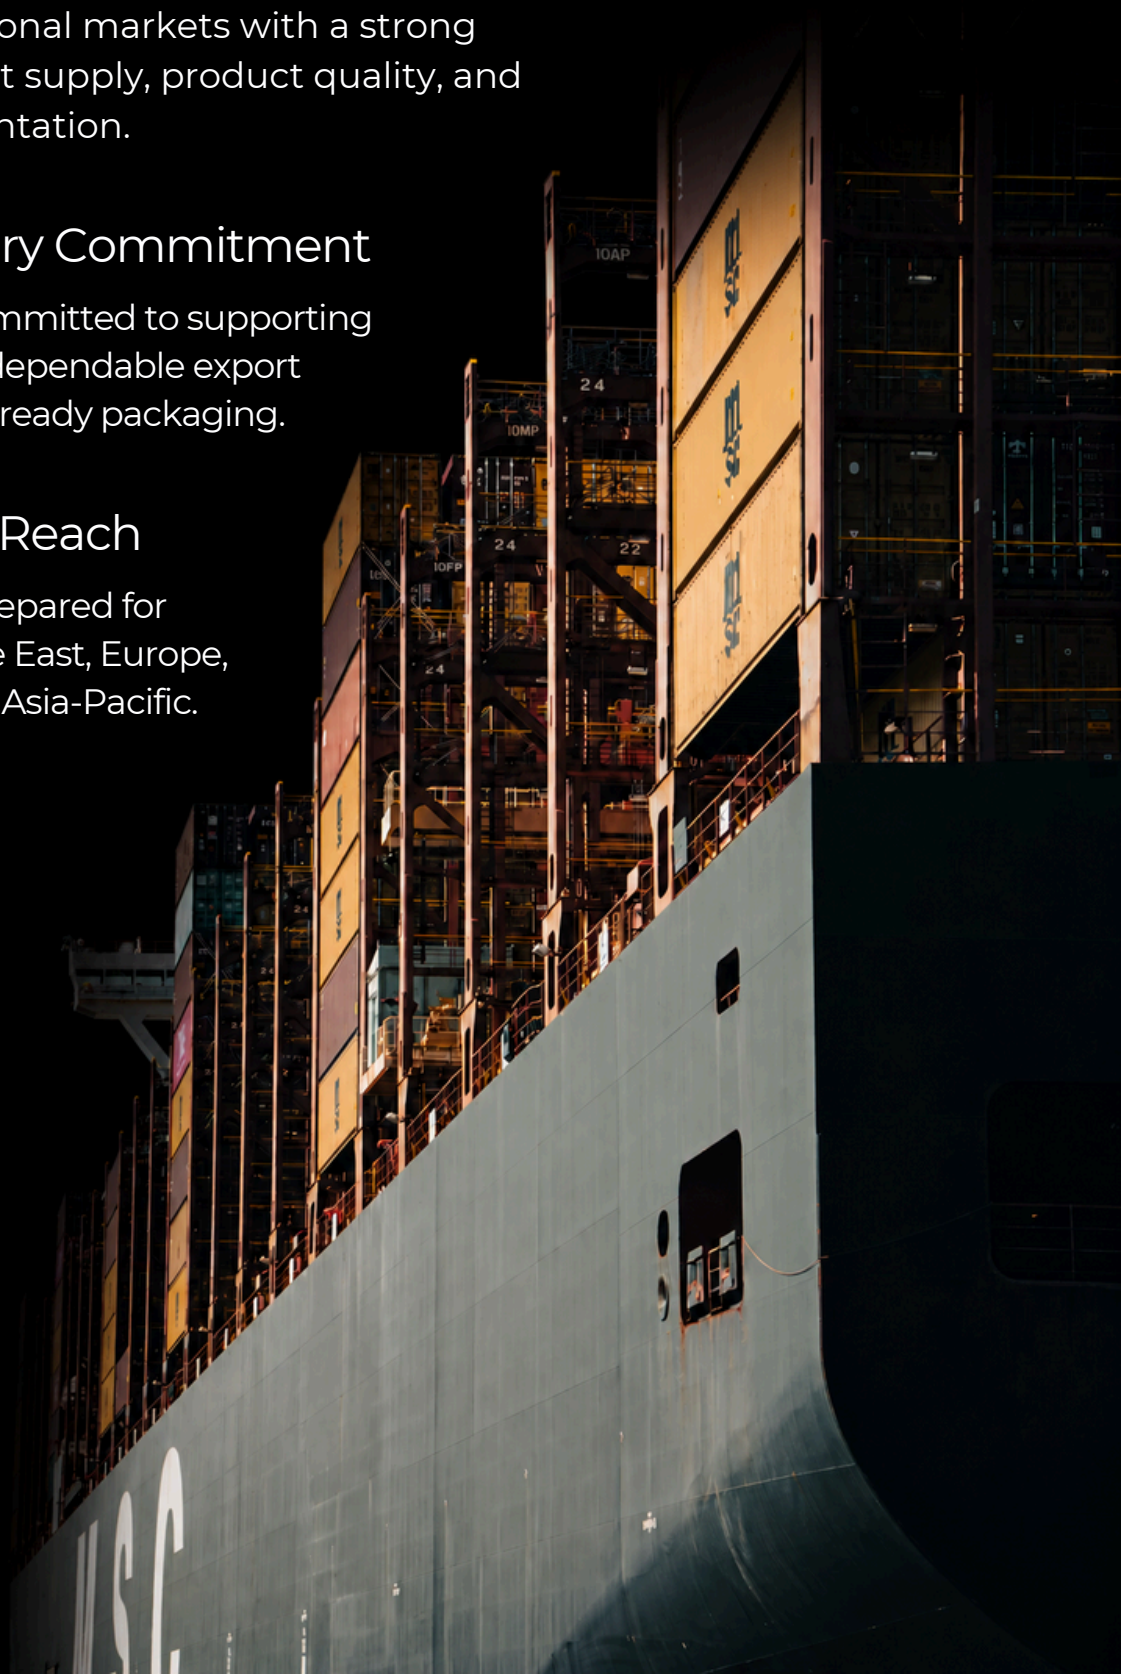

We serve international markets with a strong focus on consistent supply, product quality, and professional presentation.

Reliable Delivery Commitment

Sumatra Coco is committed to supporting global buyers with dependable export service and market-ready packaging.

Global Market Reach

Our products are prepared for export to the Middle East, Europe, North America, and Asia-Pacific.

WHY SUMATRACOCO

Natural resources. Consistent quality. Built for global markets.

100% Natural Coconut Shell

Our briquettes are made from carefully selected coconut shells sourced from Indonesia, providing a natural foundation for premium charcoal products.

Consistent Product Quality

We focus on consistent heat, clean burning performance, and dependable product quality for shisha, hookah, and BBQ applications.

Export-Oriented Approach

From product preparation to presentation, Sumatra Coco is developed with international buyers and global markets in mind.

Premium Presentation

Our product and packaging are designed to deliver a professional, market-ready appearance that reflects the quality of the brand.

PREMIUM SHISHA / HOOKAH BRIQUETTES

Consistent heat.
Clean burn.
Reliable performance.

Material

100% Pure Coconut Shell

Shape Options

Cube (22mm, 25mm, 26mm), Flat, Hexagonal

Ash Content

Low (1.8% - 2.2%)

Fixed Carbon

Min. 75% - 80%

Moisture

Max. 5% - 6%

Calories

7,200 - 7,500 kcal/kg

Burning Time

2.0 - 2.5 Hours

PREMIUM BBQ BRIQUETTES

Steady high heat for
premium grilling applications

Shape Options

Hexagonal

Burning Time

3.0 - 4.0 Hours

Key Features

Steady high heat, low smoke, 100% natural
composition with no chemical binders.

Designed for premium grilling applications with steady high heat, low
smoke, and reliable long-burning performance.

INDEPENDENT LAB RESULTS

To support product credibility and consistent quality, selected briquette samples have been independently tested by PT SUCOFINDO. The analysis covers key technical parameters relevant to charcoal briquette performance, including moisture, ash content, volatile matter, fixed carbon, sulfur content, gross calorific value, and bulk density.

Sample C25		Sample C26	
Total Moisture	9.47%	Total Moisture	9.01%
Ash Content (DB)	3.95%	Ash Content (DB)	2.33%
Fixed Carbon (DB)	77.59%	Fixed Carbon (DB)	79.64%
Total Sulfur	0.05%	Total Sulfur	0.03%
Gross Calorific Value (DB).	7,483 kcal/kg	Gross Calorific Value (DB)	7,516 kcal/kg
Bulk Density	473.30 kg/m ³	Bulk Density	480.99 kg/m ³

Independent laboratory analysis conducted for sample codes C25 and C26.

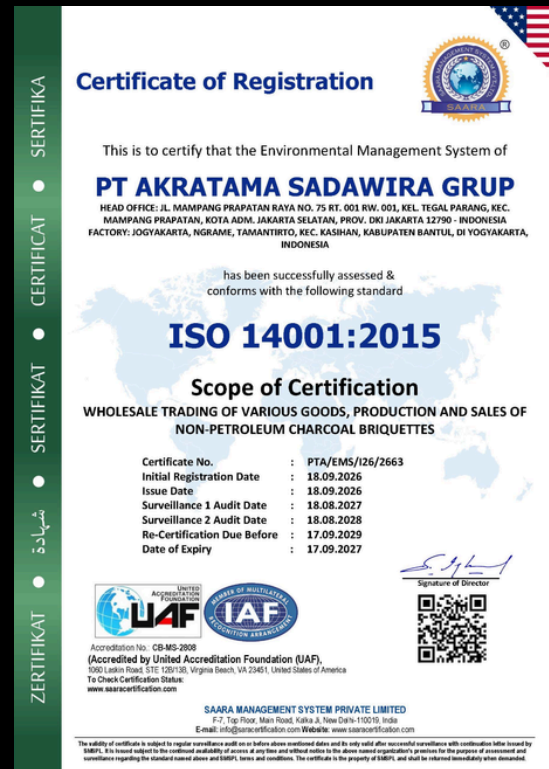

Independent analysis by PT SUCOFINDO
Sample Codes: C25 & C26

QUALITY ASSURANCE & CERTIFICATION

Structured quality and environmental management systems support our production, quality control, storage, and distribution processes.

ISO 9001:2015
QUALITY MANAGEMENT SYSTEM

ISO 14001:2015
ENVIRONMENTAL MANAGEMENT SYSTEM

**QUALITY CONTROLLED. RESPONSIBLY MANAGED.
GLOBALLY PREPARED.**

PRODUCTION PROCESS

From carefully sourced materials to controlled production and final distribution.

1

SOURCING

Raw materials and production requirements are carefully managed to support consistent manufacturing operations.

2

PRODUCTION

Coconut charcoal briquettes are processed through controlled production activities with operational monitoring throughout the manufacturing stage.

3

QUALITY CONTROL

Product quality is checked before release. Non-conforming outputs are identified and controlled to prevent unintended use or delivery.

4

STORAGE

Finished products are properly handled and stored to preserve product condition before shipment.

5

DISTRIBUTION

Products move through warehouse and logistics operations for preparation and delivery to customer destinations.

A PACKAGING EXPERIENCE THAT REPRESENTS THE BRAND

Sumatra Coco packaging is designed to reflect premium quality, clean energy, and modern export presentation. Every detail is created to strengthen product value and brand perception in global markets.

- Elegant matte black finish
- Premium foil branding
- Export-ready retail presentation
